

WAGENKNECHT SENT TO A PRISON CELL

PORT WASHINGTON MURDERER SENTENCED.

Must Serve Twenty-One Years in Waupun For His Brutal Crime—Two Children Fatally Burned at Kiel While Playing—Some Other State Happenings.

Port Washington, Wis., March 20 [Special].—Ferdinand Wagenknecht, who was convicted of murder in the second degree for the killing of John S. Peters, a Grafton farmer on Dec. 26th last was sentenced this morning to twenty-one years in state prison. The 26th day of each month will be in solitary confinement. The murder was a brutal one.

ROCK COUNTY MAN BEREAVED.
Wife Taken Sick While Nursing a Relative and Dies.

Beloit, Wis., March 20.—Last Monday the young wife of W. F. Hull died, and Warren Hull, his father, went to the bereaved husband's home to assist him. Soon after arriving there he was taken down with pneumonia and died yesterday. The elder Mr. Hull was a prominent farmer of Shirland.

Neenah, Wis., March 20.—Mrs. Eliza Monahan, a resident of this city for the past forty years, died of general debility, aged 74 years. Two grown children survive her.

Kaukauna, Wis., March 20.—The funeral of Francis Joseph, aged 23 years, was held yesterday from the Wrightstown Catholic church. He was a resident of the town of Holland.

Beloit, Wis., March 20.—Hans Holte, aged 50 years, for fifteen years an employe of the Thompson Plow company, died from consumption.

TWO GIRLS FATALLY BURNED.

Dresses Caught Fire From a Stove Pipe in the Garret.

Kell, Wis., March 20.—[Special].—Two daughters of John Ellenbeck, living in the town of Celstee, aged six and eight years, were burned while playing in the garret. Their dresses caught fire from a stove pipe passing through the room and before their mother could go to their assistance they were enveloped in flames. Mrs. Ellenbeck was seriously burned in putting out the flames.

Druggist's Certificate Cancelled.

New Richmond, March 20.—M. E. Williams of New Richmond, was fined \$50 and costs for making false registration papers to become registered as a pharmacist. His certificate was also cancelled. His case was brought by the Board of Pharmacy, at Hudson, before Judge George Randall.

Kaukauna Dwelling Burns.

Kaukauna, Wis., March 20.—John Heitz's frame dwelling, near North Kaukauna, burned to the ground. Mr. Heitz was absent from home, but near neighbors carried most of his goods out. It was insured for \$800 and its contents for \$200. Both were valued at \$1,600.

Free Silver Candidate For Judge.

Hudson, Wis., March 20.—George D. Graham, of Warren, was nominated for county judge this afternoon by the democratic free silver convention. John D. Goss, the present judge, was not considered for renomination because he was a gold democrat.

Water Power Restored.

Appleton, Wis., March 20.—The Neenah and Menasha Water Power company issued permission for the drawing of the full first water for power purposes.

Hearing is Postponed.

Darlington, Wis., March 20.—The hearing of Campbell and Collins, accused of killing Edward Hale, which was set for today, was postponed until Monday.

Marion Wescott Named.

Shawano, Wis., March 20.—At the Republican County convention this afternoon Marion Wescott was nominated for the office of county judge.

Diplomatic Relations Strained.

St. Petersburg, March 20.—The refusal of Queen Olga to receive the Russian Charge d'Affaires at Athens has made a painful impression here. The relations between Russia and Greece are daily becoming more unfriendly.

Spanish Revolutionists Busy.

Madrid, March 20.—At the inauguration of a new Republican club here last evening, revolutionary speeches were made and led to a tumult and fighting, during which several persons were injured. Some arrests were made.

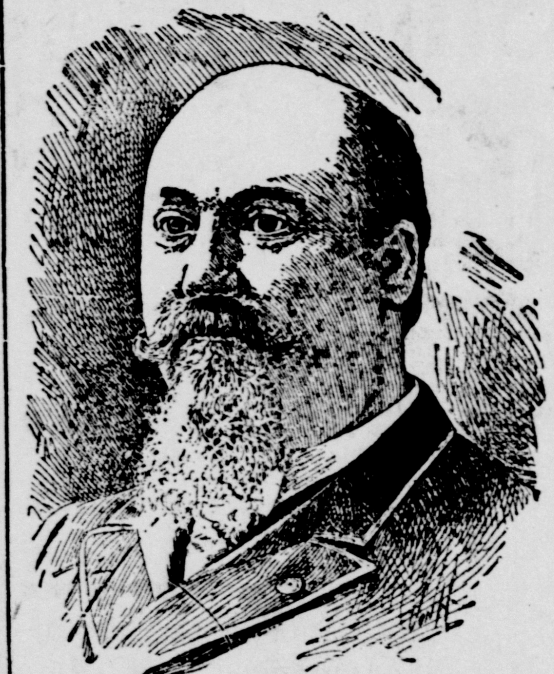

Sanitary Conference Is Ended.

Vienna, March 20.—All the delegates to the international sanitary conference have signed a definite convention on the basis of the Paris and Dresden conference. The meeting is regarded as having been a great success.

HE PREFERS TO BE MAYOR

Gov. Pingree May Resign—Supreme Court Decision Against Him.

Detroit, Mich., March 20.—Hazen S. Pingree, who, after being elected mayor for four successive terms, last fall gained the governorship of the state by an unprecedented majority, is no longer mayor of Detroit. A unanimous decision to this effect was given

HAZEN S. PINGREE.

by the justices of the Supreme court at Lansing late Friday afternoon. It was the case of D. W. H. Moreland vs. the Common Council of Detroit. Moreland contended that the mayor was no longer a mayor when he accepted the office of governor, and, in the local courts, tried to force the council to order a spring election for the mayoralty. Moreland lost in the local courts, and carried the case to the Supreme court, affixing the name of Attorney-General Maynard's name to the document as the complainant, without the latter's permission. The case, however, went through, and the Supreme court has been working upon it for two days.

The decision was read by Justice Hooker, and was signed by all the judges, making it unanimous. The council was also ordered by this decision to call a special election on April 5, to elect a man to fill the vacancy. Soon after the news was received here a report became current in local political circles that Pingree would resign as governor to become mayor and continue his fight against the street-railway companies. He refused to say what his intentions were.

HE WILL ADD \$113,000,000

Chairman Dingley Explains His New Tariff Bill.

Washington, March 20.—Chairman Dingley of the ways and means committee Friday presented in the house the report on the new tariff bill. It follows largely the lines of the explanatory statement on the bill made by Mr. Dingley Monday.

After giving a table estimating the increase of revenue from the bill at \$113,000,000, Mr. Dingley says: "If the bill should become a law by May 1 it is more than probable that it would yield an increase of \$75,000,000. It is easy to see how a delay in the enactment of the bill to July 1, for example, would take from the treasury \$15,000,000 of revenue and turn it into the pockets of speculators."

The report says that a deficiency in revenue amounting to \$203,000,000 in four years justifies the convocation of congress to effect a remedy. Although the government realized \$293,481,894 from the sale of bonds to redeem demand notes, \$203,000,000 of the notes were paid out to meet the deficiency, which notes, the report says, have been a potent cause of the distrust in business circles.

At least \$16,000,000 of the \$196,000,000 in the treasury will be paid out before July 1 to meet the deficiency, and of the remainder at least \$150,000,000 in gold ought to remain in the reserve, leaving but \$30,000,000 as a working balance; which is as small as safety admits.

Gold Democrats in Luck.

Madison, Wis., March 20.—The gold Democrats of Wisconsin will have a place on the ballots at the next election, though they did not cast enough votes at the last election to entitle them to it. The assembly Friday passed the bill providing for the printing of the names of the gold Democratic candidates on the official ballots after a speech by W. A. Jones of Mineral Point, who acknowledged the debt the Republicans owed the gold Democrats.

Join the Insurgent Army.

Havana, March 20.—News is received through Cuban sources that the Spanish garrison of Jaguey Goande, in Matanzas province, had deserted to the insurgents' cause, some 300 strong, carrying with them as prisoners their officers and taking to the insurgents a large supply of clothing and ammunition.

June 30 the Date.

London, March 20.—It is announced that June 30 has been definitely fixed upon for the jubilee thanksgiving day for the celebration of the sixtieth year of the reign of Queen Victoria. June 22 will be a bank holiday.

Cloudburst in Iowa.

Burlington, Iowa, March 20.—It is reported here that a huge waterspout burst about 7 o'clock last night at Durant, Iowa. No loss of life is reported. The storm took away a county bridge and blew down two or three barns.

BOTH THE MEN DIE ON THE GALLOWS

JACKSON AND WALLING ARE HANGED TODAY.

Special Order Issued After the Delay Consequent to the Former's Confession—Says It Was a Fake—Drop Was Sprung at 12:20 O'clock This Afternoon.

Newport, Ky., March 20.—Walling and Jackson were both hanged by a special order from the governor.

Jackson exonerated Walling and delayed the execution from nine to twelve o'clock.

On the scaffold Jackson said that his confession was a fake.

This being wired to the governor, an order was telegraphed back to hang them both.

This was done at 12:30 o'clock.

Frankfort, Ky., March 20.—Governor Bradley last night issued an official statement refusing any further executive action in the case of Jackson and Walling, who will hang at Newport, Ky., today.

The riot alarm summoned the local militia together at 2:30 o'clock Friday afternoon, and the troops left at 3 o'clock for Newport, carrying with them the decision of the governor. The militia marching through the streets was the first intimation local people had that the fate of Jackson and Walling was forever sealed.

Newport, Ky., March 20.—The last ray of hope for Scott Jackson and Alonzo Walling, the slayers of Pearl Bryan, has vanished. At 3 o'clock Friday afternoon Gov. Bradley telegraphed Sheriff Plummer to proceed with the execution, as he would not interfere. The confessions of the doomed murderers were sent to the governor by special messengers. They had been led to believe that by making a complete statement of the tragedy they might escape the gallows, and grasped eagerly at the hope, but Gov. Bradley evidently placed little faith in their confessions.

The prisoners were removed to Newport in the afternoon. The trip was made via the Alexandria pike, which runs past John Locke's farm and within a few feet of where the headless body of Pearl Bryan was found. When their attention was called to the spot by Sheriff Plummer neither claimed to recognize it, saying they had never seen the place before.

The sorrow-stricken mothers of the doomed men called and bade their sons farewell. Mrs. Walling was driven to the jail a few minutes after the arrival from Alexandria. She remained for over an hour, and had to be almost carried to her carriage when the time for leave-taking arrived. After a long talk the young man knelt at his mother's knee while she offered up a fervent prayer that he might be spared. Walling was completely prostrated for a few moments after his mother's departure, but soon cast off his sorrow.

Mrs. Walling had been gone only a few minutes when Mrs. Jackson arrived on a similar mission. Her stay was much shorter than Mrs. Walling's, and she bore up under the trying ordeal remarkably well.

THE HOUSE GETS IN WORK

Sundry Civil and General Deficiency Bills Passed.

Washington, March 20.—The Fifty-fifth congress began its work in earnest Friday along the lines mapped out by Speaker Reed and the committee on rules.

A few minutes after the gavel fell the house was in earnest discussion of the rule governing the tariff debate giving until next Monday for the minority to report. This proposition was adopted by a strict party vote.

The first bill taken up was the sundry civil, twenty minutes for debate being allowed on each side. The reading of the 127 pages of the bill consumed almost two hours. The bill passed, 157 to 73.

The general deficiency bill was then taken up. Again forty minutes were allowed for debate. It required an hour and ten minutes to read the eighty-three pages of this bill. The bill was passed by a vote of 131 to 89. The sundry civil carried \$53,147,551 and the general deficiency \$8,166,214. At 8:10 o'clock the house adjourned.

President May Appoint Judges.

Washington, March 20.—Congressman McCall of Massachusetts has introduced a bill in the house which provides that the president may, with the consent of the senate, appoint judges for Indian reservations in the states and territories west of the Missouri, who shall have jurisdiction over all matters and disputes, civil and criminal, arising upon the reservations. Not more than one judge is to be appointed for any one reservation.

Iron Companies to Unite.

Harrisburg, Pa., March 20.—The consolidation of the great iron and steel manufacturing interests of the McCormicks and Baileys in this city will go into effect on May 1. The plants comprise three rolling mills, a universal mill, and a flanging plant. The capacity for manufacturing, shipbuilding, and bridge construction is very great. Two of the mills being the largest in the country.

MENACE IN WATER IN GREEN COUNTY

THE FLOODS DO HEAVY DAMAGE.

Albany Dam Goes Out, and the Raceway at Brodhead Is Extensively Worked Out—Train Service Is Greatly Interfered With—Other Flood News.

Brodhead, Wis., March 20.—[Special].—Floods are causing much damage in this section, and trains are all delayed. The train between Albany and Monticello is cut off by wash outs. Forty car loads of earth have been washed out of the race way bank here and the damage will amount to more than \$100.

The Albany dam has gone out, a section 20 feet long being taken out. The water is raising rapidly here, and is now at high mark.

An extensive wash out occurred near Hanover, Rock county, but it has been repaired.

Wash outs are also reported in the vicinity of Gratiot.

Chicago, March 20.—Telegraphic reports from the Mississippi, Ohio, and Missouri Valleys tell a story of widespread disaster as a result of floods caused by heavy rains.

In the lowlands about Memphis in the eastern part of Arkansas it is said that the loss of life has been heavy, but as the districts affected are remote from telegraph offices but meager details are obtainable. No estimate can be formed of the damage to property, but it is claimed to be enormous.

In Wisconsin, Minnesota, Iowa, Nebraska, Missouri, Illinois, Kentucky, Tennessee, Arkansas, Mississippi, and Louisiana the streams have been converted into raging torrents and the weather bureau at Washington predicts destructive inundations in several states.

Every effort is being made to hold the levees intact on the lower Mississippi.

Mississippi in the vicinity of Natchez was swept by a cyclone, but no lives were lost.

Advices from the flooded district show that heavy rains are still falling.

CITY IS FLOODED.

Raging Waters of the Menominee Submerge Houses in Milwaukee.

Milwaukee, Wis., March 20.—The district of Milwaukee, known as the Menominee valley, is submerged in water to a depth of over ten feet, and a large number of people are imprisoned in their homes without any means available of effecting a rescue.

Nearly 200 houses in the vicinity of 40th and Clybourn streets are surrounded by a raging flood and the Menominee river at that point is still rising rapidly and threatens to wash several bridges and a large number of houses away with it. At this point the river has increased from a normal width of about forty feet to nearly a third of a mile in width, and the houses are in water up to the second story. While there have been thus far no fatalities, the water is rising rapidly and some of the houses are liable to topple over any moment.

Several houses, a number of cows and several dozen pigs were drowned, and there are fully fifty houses which are flooded half-way to the ceilings in the lower floors. The absence of boats makes it impossible to get details.

The Chicago, Milwaukee & St. Paul has issued instructions to its crews not to cross the bridge at Lindworm until further orders. This bridge is on the Milwaukee river about five miles from the city. The Milwaukee river is swollen to a torrent, and there are fears that the dam near Lindworm may go.

Dispatches received bring news of serious floods all over the state with the waters rising rapidly. This is the first gush of the flood, and it is expected to grow worse steadily, as the surface waters flow into the brooks and rivulets. At Fond du Lac and Oshkosh the waters are rising rapidly, and already a number of the streets are covered with water, and many business houses are flooded. At Elroy the great iron bridge is in great danger and likely to be washed away at any moment. Beaver Dam is flooded, and the water is rising rapidly. At Port Washington the railroad bridge was washed away, and a freight train wrecked. The wires bring a story of rushing waters from every section of the state where there are running streams or lakes to which rivers are tributary.

Seventeen Lives Reported Lost.

St. Louis, Mo., March 20.—Advices from Caruthersville, on the Mississippi river bank in the extreme southeastern part of the state, are to the effect that a levee fifty miles below that place is reported to have broken, and that seventeen lives have been lost. Many families on the river and in the country have abandoned their houses and taken refuge at Caruthersville. A large amount of stock has been lost on the Tennessee side of the river, almost the entire bottom for miles being inundated. The levee near Cottonwood, about eight miles from Caruthersville, is expected to break almost any hour and overflow that part of the country. It is thought the levee was cut by

persons living on the Tennessee side, who hoped by making an opening for the flood on the Arkansas side to decrease the flood and thus save the property on the Tennessee side.

DELUGE IN THE NORTHWEST.

Rivers Out of Their Banks, Traffic Suspended and Mails Delayed.

Luverne, Minn., March 20.—The Rock river at this point is a mile wide, and rising at the rate of a foot an hour. Most of the settlers along the low lands have moved to safe points, but there are a few who remained, and their loss of stock and goods will be great. The flood now gives promise of eclipsing that of 1881.

Centerville, S. D., March 20.—The Vermilion river is a raging torrent, and the water is constantly rising. Some bridges are gone, others are impassable. No mail matter from any point. The city is partly under water.

Vermilion, S. D., March 20.—Bridges are being carried out by the Vermilion river, which is bank full. The ice in the Missouri is still sound. People are moving to the hills.

Spring Valley, Minn., March 20.—The river is gradually rising, and people living on the flats are compelled to vacate.

Faribault, Minn., March 20.—The streets are badly flooded. The ice in the straits is expected to go any time, when there will be a great rise in the river.

Pembina, N. D., March 20.—The snow is disappearing so rapidly that a flood in the Red river is inevitable.

Jamestown, N. D., March 20.—The melting snow caused a rise of five feet in the Jim river, and nearly all of the bridges across that stream are threatened. It is believed that every pile bridge on the river will be carried out with the freshets within a week.

Preston, Minn., March 20.—This region is all under water, and the river is higher than at any time since 1872. All trains are abandoned.

PERIL ON MISSOURI RIVER.

The Signal Station Predicts a Most Disastrous Freshet.

Omaha, Neb., March 20.—With every stream in Nebraska and western Iowa pouring a flood of unusual proportions into the Missouri river and the enormous volume of water coming down from the north from the tributaries of that stream, the indications are that one of the most disastrous floods in this region of the Missouri valley is certain.

From the north to the south state line of Nebraska the Missouri is full of heavy ice, and, in some places, the channel is solidly blocked with enormous gorges of ice. At Blair an enormous ice bridge has formed, extending many feet into the air and covering a dozen acres, forcing the water over the low lands in every direction.

In the interior of the state and along the Missouri, where the ice gorges threaten railroad property, gangs of men with dynamite are constantly at work blowing up the dangerous ice bridges and thus keeping the ice moving. This is dangerous work and accidents are frequent.

Thus far the damage in the interior of the state as a result of the swollen streams is much heavier than along the Missouri where the real force of the flood has scarcely yet been felt. The damage along the Missouri is confined very largely to the Iowa side where the land is much lower than on the western shore.

Over in Iowa at Rock Rapids and Doon the bridges are out, and at Rock Rapids there is over 100 acres of ice around the tracks. The Illinois Central is also washed out. Wakefield and Lyons are suffering from overflows, and near these two towns several miles of the Omaha is under water.

Consternation at Nashville.

Nashville, Tenn., March 20.—Thursday night's heavy rains gave the Cumberland river a fresh start, and a rise of over twenty inches was recorded. Over fifty families have had to move out, and the rise to fifty feet, which will be reached by Sunday, will force out hundreds of others. All the East Nashville saw and planing mills will be compelled to shut down, and thousands of dollars' worth of lumber is in danger of being swept away. The Lebanon pike is impassable, and the Murfreesboro pike will soon be. The rise of water now assured will result in great loss to manufacturing establishments along the river front.

Train Goes Through a Bridge.

Port Washington, Wis., March 20.—The big bridge near this city fell through last night just as a freight train on the Chicago & Northwestern railroad was passing over it. The courage and presence of mind of the engineer alone saved the crew at the front. He heard the bridge crack, and at once opened the throttle wide. The engine jumped under the pressure, and, running at full speed, cleared the bridge with two cars just as the structure fell to pieces. The whole middle section of the train, two dozen cars, went with it thirty feet below. No one was injured.

Official Warning Sent Out.

Washington, March 20.—The following special river bulletin was issued Friday: "The floods in the lower Mississippi during the next ten days or

THE TRADE REVIEW BY DUN & COMPANY

CHEERING REPORTS ARE SENT OUT NOW.

Business Conditions Continue To Improve Slowly and a Distinct Gain Is Shown For the Week—Price of Wheat Has Advanced—A Decrease in Failures Shown.

New York, March 20.—R. G. Dun & Co.'s weekly review of trade says:

"Though steadily increasing, business is still much below its volume in former years of prosperity, and many express disappointment. Yet there is some gain every week, with more hands at work and more mills in operation, and the sure result—large purchases for consumption—cannot be long delayed. In some branches it is felt already.

"While manufacturers of cotton goods are looking forward with much confidence the present demand is not equal to expectations. Sales of wool at the three chief markets for the last week were 10,891,900 pounds, and for three weeks have been 28,795,800 pounds, of which 16,628,200 were domestic.

"The demand for wheat has not given much help to speculation. Atlantic exports have been only 1,263,390 bushels. Accounts regarding the coming crop have been less favorable this week, and the price has advanced 1½ cents. The exports of corn continue heavy, 4,543,705 bushels for the week, and quotations advanced ¾ cents. The cotton market has been almost lifeless.

"Failures for the week have been 216 in the United States, against 261 last year, and 50 in Canada, against 49 last year."

TORNADOES IN THE SOUTH

Great Damage Done at Utica and Brander, Miss.—Lives Lost.

Utica, Miss., March 20.—A cyclone struck here early Friday morning. Several cabins were demolished and fences and trees blown down. J. O. Hill, a farmer, was killed, and his wife injured. No further loss of life is reported.

Brander, Miss., March 20.—A cyclone passed two miles south of Brander Friday morning at 6:30 o'clock. No information has been received as to the effect of the storm farther east. A great deal of property was destroyed here. The tornado was followed by a heavy downpour of rain.

New Orleans, La., March 20.—Dispatches received here report that a tornado Thursday night swept over the northern portion of Dallas county, Fort Wayne and Denton, and Waxahachie, Tex., unroofing houses, uprooting trees and leveling fences. It struck Yazoo City at 5:30 a. m. A man and wife are reported killed three miles north of this place, their residence being blown down. Many barns and small houses were destroyed in this section.

Whitcaps Sent to Jail.

Knoxville, Tenn., March 20.—Sevier county, the scene of many recent white-cappings and disorders, is now in a state of excitement, and it is believed that a big fight occurred at Sevierville last night. Yesterday the grand jury returned indictments against three men, charging them with the murder of William Whaley and wife two months ago. The judge ordered the men, who are members of the whitecap gang, sent to jail without bond. The sheriff learned that an effort would be made to release the prisoners last night. The wires between Knoxville and Sevierville were cut in several places, so that nothing could be learned except by courier. The United States mail messenger says the citizens were in arms. The sheriff and a strong guard were around the jail. A later report says that the father of Deputy Sheriff Davis was assaulted by the whitecaps and that trouble was certain.

To Bar Prize Fight Pictures.

Springfield, Ill., March 20.—Representative W. O. La Monte of Chicago has introduced a bill with an emergency clause attached which will prohibit, if it becomes a law, the reproduction of pictures of prize fights and fixes a severe penalty for violating it. During the last three or four days he has received a large number of letters from business men and fathers advocating the passage of such a bill. The bill prohibits the exhibition not only of pictures of prize fights but any other act prohibited in the criminal code of this state.

Stock Yards Bill Arranged.

Springfield, Ill., March 20.—The house committee on agriculture has agreed upon a stock yards bill, which is to be reported as a substitute for all pending measures on the subject. Yardage charges are fixed as follows: Horses and mules, 25 cents per head; cattle, 15 cents; hogs, 6 cents; sheep, 4 cents. Corn is to be furnished at a price not to exceed 25 per cent in addition to the current wholesale market price; hay, straw, etc., at a price not exceeding 35 cents per 100 pounds, in addition to the current price.

Palmer to Be Public Printer.

Washington, March 20.—Frank W. Palmer of Chicago will be appointed public printer to succeed Thomas E. Benedict. The salary is \$4,500.

THE WEEK'S WORK AT THE CAPITAL

THE LEGISLATURE MUST PUSH WORK TO FINISH.

The After Recess Session—Pass Deficiency Tax Bill—Many Amendments to the Fish and Game Bill—Fire and Police Board Measure Greatly Changed.

MADISON, Wis., March 20.—[Special]—Busy as it has been the past week, the legislature will have to be still busier if it completes the work of the session by April 14, the time now practically fixed upon for the recess, which is practically final adjournment, so far as the ordinary grist of law making is concerned. The resolution fixing that date is now hung up in a senate committee, to await agreement as to how much business shall be taken up after the thirty day recess. The resolution as introduced provides that no other business shall be considered than except the revision of the statutes, now in the hands of a special committee, but there are several members who want to include also some other important matters, among them the report of the investigating committee as to number and salaries of capital employees, the report of the committee on university investigation, and the revised insurance code. It should be decided to do this, the other business can probably be finished up by the date fixed.

The Deficiency Tax Bill. It is practically settled that the bill providing for a tax levy of 3.10 of a mill for the year 1897 and 1898, to meet the deficiency in the general fund will become a law. It has been ordered to third reading in the senate, with and amendment which authorizes the secretary of state and state treasurer, with the approval of the governor, to transfer moneys temporarily from the trust funds to the general fund, when it becomes necessary to meet current expenses. This provision is made necessary by the fact that the general fund is now nearly empty, and it will be three or four months yet before the money comes in from this year's taxes. The tax to be levied will realize about \$160,000 for each of the two years, which will only a little more than make up the deficit which would have existed at the incoming of the present administration, and which has existed at the same period for several years, but for the license moneys advanced by the railroad companies.

The Fish and Game Law. The general fish and game law has gone to the third reading in the senate with a large number of amendments attached to the bill as it was reported by the fish and game committee. It is probably to be further amended when it reaches the assembly, which it will do early next week. It is to be hoped it will not be delayed so long as to necessitate it being rushed through in the end and blunders made which may result in invalidating the entire bill, as was done two years ago. That blunder, by the way, is likely to cost the state about \$10,000 to pay the Oshkosh fishermen for the nets destroyed by the game wardens under the law of 1895, when the supreme court declared was never legally passed. There is a bill before the assembly providing for the payment of the fishermen's claims, and Speaker Buckstaff, who was active in enforcing the law when it was supposed to be valid, and ex-State Treasurer Henry B. Harshaw, who was the legal adviser of the game wardens and was with them when they destroyed a large number of the nets have advised the committee on claims that the claim is a valid one, and that the immediate settlement will probably be the cheapest for the state in the end.

Fire and Police Board Bill. The bill providing for a non-partisan board of fire and police commissioners in all cities in the state has been amended in committee to an extent which makes it doubtful whether the officers themselves, who are the prime movers in the matter, will care to see it pass. The amendments change the date of the laws going into operation from April to May, so as to carry it past the spring election, and also cut off all the officers' fees. As the only fees the policemen receive in many cities are those in state cases, where the county, and not the cities which pay their salaries, must pay the expenses, the policemen feel that this is an injustice.

THE KINGS DAUGHTERS MEET.

Officers Are Elected and Plans for the Year Made.

The Loan Band of King's Daughters of the Congregational church met last evening in the parlors of the church and reviewed the work. The band is starting out on their eighth year. Foreign missionary work is the chief object of the band and their work has been effective. When the society formed there were but ten charter members the number has increased rapidly. The band has raised, for foreign missionary work, an average of \$100 a year, which, with incidentals, will reach well towards the \$1,000 mark. But foreign missionary work is not the only object they have in view. Aside from helping the church in numerous ways they strive to do home missionary work, as well, but through other channels than their own society.

Twenty-one life members are now in the local organization which means that the society has forwarded \$25 for each one of these members to the Woman's Board of Missions of the Interior at Chicago.

During the present season the study of India is being discussed and the following program was rendered last evening.

1. Hymn, Prayer, Scripture.
2. Dress of the People. Miss Jennie Spoon.
3. Occupations. Miss Marcia Withington.
4. Amusements. Miss Jennie Echlin.
5. Means of Intercommunication. Miss Hunt.
6. The Village and its System. Miss Ada Mayhew.
7. The Government of India. Mrs. Robert S. Denison.
8. Caste. Miss Agusta Macdon.
9. Popular Hinduism. Miss Gertrude Cobb.
10. Effects of Popular Hinduism. Miss Nellie Holmes.
11. Through Desire of India what Important Discoveries were made? Miss Etta Duke.

The following officers were elected for the ensuing year:
President—Miss Susie Jeffris.
Vice President—Mrs A. T. Kemmett.

Secretary—Miss Katherine Shopbell.
Treasurer—Miss Louise Kent.

The life members are:

THE "YOUNG CASE" ENDED.

Judge Bennett Finds For The Defendant Yesterday Afternoon.

The case of James Young versus M. M. Phelps as administrator of Bridget Young, which has been hanging fire in the circuit court since 1895, was settled by Judge Bennett who rendered a decision in favor of the defendant. In 1885 James Young of this town improved the farm to the extent of \$3000 and in this sum he brought suit against her for damages. Danwidde and Wheeler appeared for the defendants and B. B. Eldredge represented the plaintiff.

MUCH MONEY MADE BY LEAF DEALERS

ONE FIRM SAID TO HAVE LAID UP \$20,000.

Profits For One Month Are Placed at \$4,000—Many Large Transactions Are Reported—Eastern Men Talk to Local Dealers—The Crops Are About All Bought.

There is "money in tobacco" this year, and the local dealers have not been behind in the race. One local firm, it is said, has during the present season made at least \$20,000 on their dealings. During the month of February they cleared the neat sum of \$4,000. But this is the sunny side of it, for this same firm lost \$14,000 during the season of 1892, if reports be true.

During the past ten days three deals have closed in the Stoughton market, the amounts paid being \$10,000, \$15,000, and \$17,000.

New York buyers have been in the city this week and have made George Rumrill, of this city an offer on 600 cases of tobacco the price offered it is said was \$18,000. The proposition was refused and the owner will hold for higher prices.

Local market conditions are gradually becoming less active; not because the buyers desire to quit riding but because the crops in the hands of the farmers are becoming more scarce says The Leaf. Some buyers have about ceased riding and others are still riding as hard as ever, picking up whatever they can find. Prices are on the up grade, but these do not deter the buyers. Every farmer in the state having tobacco unsold is carefully watched and frequently importuned to part with his holdings.

"Among the larger transactions reported are: 200 cases sold and 150 cases bought by S. B. Heddles; 100 cases bought by George H. Rumrill, and several good sized lots sold by Rudolph, Haviland & Sons. A half dozen local buyers are still actively riding the country and visiting other markets in quest of desirable lots of tobacco.

Delevities at the warehouses are frequent and large forces are still at work in the assorting rooms. Shipments from the various warehouses have been liberal to all points and calls for samples are frequent and loud.

"Many things point to a large increase in the tobacco acreage of this state, and should the present excitement keep up we may equal the acreage of 1892, the largest ever grown in the state."

COST \$100 TO SEE THE SHOW

Milwaukee Man Missed His Train, But Saw the Performance.

William W. Raibe of Milwaukee, a representative of the Mutual Life Insurance Company of New York, says that he attended the theatre last evening, and that it cost him \$100. A telegram arrived in the city yesterday, notifying Mr. Raibe to come to Milwaukee at once. He was to have taken the 4:40 train yesterday afternoon, but on account of the washouts the train was reported to be several hours late. He then attended the theatre and left orders at the depot, if the train was coming, to send for him. The train left the city at 9:30, and Mr. Raibe reached the depot just in time to see it cross the bridge.

RURAL COMEDY ON TUESDAY

"Uncle John Sprucey" To Be Seen Here Next Week.

The Uncle John Sprucey Company will be at the Grand Tuesday, March 23. The company this season numbers thirty people, carry two bands and much special scenery. The play is a comedy of rural life with many new songs, dances and musical specialties while an orchestra of twelve pieces is one of the extra features. The realistic saw mill scene is introduced—showing a full working saw mill in operation on the stage. The street parade of the two bands takes place at noon Tuesday, and it will not doubt be watched with interest.

Mrs. Esmond's Talk Pleased a Large Audience Last Night.

Mrs. Charles Esmond lectured at the First M. E. church last evening and a goodly audience was present in spite of the storm. "A Tour of the World and the Life of Christ" was the title of the lecture and a stereopticon was used effectively. Mrs. Esmond describing the views as they were presented, and handling the apparatus herself. As the scene on Calvary was shown. Miss Selkirk sang the solo, which added much to the number. The views were exceptionally fine and Mrs. Esmond is a very entertaining speaker.

Your Kidneys Filter Your Blood

Filter your blood and get the Uric Acid out of it.

"No uric acid no rheumatism"

Filter your blood and get the poisons and impurities out of it.

Filter your blood and you will not give your children a legacy of disease.

Filter your blood and get the germs of malaria out of it.

Then backache, headache, sleeplessness, nervousness, rheumatism, neuralgia, pimples and skin diseases will leave you. You can't grow plants in air alone.

Why not? There is not enough dirt in it. Diseases, like plants, require dirt. Keep your blood pure and your kidneys active.

Dr. Hobbs Sparagus Kidney Pills

will do this for you and do it effectually. They purify the blood filtering the impurities out of it.

I Give all Praise to Hobbs Sparagus Kidney Pills.

Neenah, Wis., Jan. 25, 1897.

When a man has any serious trouble with kidneys as I have had, and has for years tried all kinds of kidney medicine without getting any benefit from them, it is natural if he tries a new medicine and it cures his pains and aches, he should say a word in its favor. I have had kidney trouble and backache so long that I don't know when it commenced. A little over a year ago I was not able to get out of bed without help for four weeks. Saw your advertisement of your Sparagus Kidney Pills and thought I would try them. After taking them three days I was able to get out of bed alone and attend to my business. I give all praise to Hobbs Sparagus Kidney Pills.

Mrs. Charles Esmond lectured at the First M. E. church last evening and a goodly audience was present in spite of the storm. "A Tour of the World and the Life of Christ" was the title of the lecture and a stereopticon was used effectively. Mrs. Esmond describing the views as they were presented, and handling the apparatus herself. As the scene on Calvary was shown. Miss Selkirk sang the solo, which added much to the number. The views were exceptionally fine and Mrs. Esmond is a very entertaining speaker.

A Dangerous Task.

March April May

Are the best months in which to purify, vitalize and enrich your blood.

Because this is the most important season of the whole year from the standpoint of health.

During winter the blood becomes impure from various well-known causes.

In spring, when all the organs demand more vitality from the blood, it is less able to respond.

The result is That Tired Feeling, sluggish Liver, Nervous Weakness, Debilitated Kidneys, Loss of Appetite, Spring Humors, Pimples, or other more serious illness.

Hood's Sarsaparilla acting through the blood cures all these troubles and puts the whole body in perfect health. It is the favorite Spring Medicines in thousands of families. A fair trial will convince you of its absolute merit. Be sure to get Hood's.

Satisfied with Hood's.

"For several years I have taken two or three bottles of Hood's Sarsaparilla every spring for eradicating the humors in the blood and for building up the system generally. My experience with Hood's Sarsaparilla has been very satisfactory." GEO. FRANK, care of D. M. Ferry & Co., Detroit, Mich.

Builds Up the System.

"I have taken Hood's Sarsaparilla for weakness with which I was a sufferer in the spring, and I have found it the best medicine to create an appetite and build up the strength that I have ever taken, and I recommend it highly." J. F. WARD, Labelle, Ohio.

Keeps the Stomach in Order.

"I keep Hood's Sarsaparilla in the house all the time and regard it as the best spring medicine I can find. It has proved beneficial in keeping my stomach in order, and since I began taking it I can eat anything I wish." H. STONE, Sherborn, Mass.

Great Blood Purifier.

"Hood's Sarsaparilla is our family physician and I believe it needs no recommendation. Wherever it has once been used there can be no substitute for it, as a blood purifier." MISS C. A. ELLIOTT, Grinnell, Iowa.

Republican City Convention.

The Republican city convention will be held at the common council chamber in the city of Janesville, on Wednesday, March 24, 1897, at 2 o'clock p. m., to nominate candidates to be voted for at the ensuing municipal election, and to elect a city committee.

Nominations are to be made in the following order:

- Mayor.
- Street Commissioner.
- City Clerk.
- Justice of the Peace.
- School Commissioner at Large.
- Sealer of Weights and Measures.
- The several wards will hold their caucuses on Tuesday evening, March 23, 1897, and elect delegates to said convention as follows:
- First Ward—Ten.
- Second Ward—Six.
- Third Ward—Ten.
- Fourth Ward—Eight.
- Fifth Ward—Four.

O. F. NOWLAN, Chairman.

By order

WARD COMMITTEE.

SPEAK AT THE CAUCUSES.

Attend the caucuses.

There must be no doubt after Tuesday night as to the will of the republicans.

There must be no excuse for complaints about haste or ill-considered action.

The men named Tuesday night must be men who will deserve the full support of their party and that support should they receive.

No bolting will be justified.

The primaries afford a fair chance for the expression of individual preference and for discussion of the comparative weakness and strength of candidates. Let nobody who fails to take advantage of this opportunity raise his voice in protest later.

Attend the caucuses.

There is not the slightest excuse for a long debate in the senate on the tariff bill. The country thoroughly understands the underlying principles of the measure—protection to American industries and revenue to meet the deficit. Any attempt on the part of the democrats and assistant democrats in the senate to lengthen the debate in that body will be made solely to delay the putting in effect of the new measure.

If Mr. Cleveland hadn't shipped wine to his Princeton house, five men then in the employ of the Pennys-

vania railroad would not now be hunting jobs. The men drank the wine, got drunk and have been discharged. Another temperance object lesson, and from an unexpected quarter.

If the free traders will recall the fact that they were defeated at the last election, it may serve as an antidote to the madness that is making them foam at the mouth because protection is going to have another inning.

The man who gets his income increased from 25 to 40 per cent. isn't apt to growl over an increase of 10 or 15 per cent. in his living expenses.

Their isn't the slightest doubt that the senate will ratify the arbitration treaty, after slightly amending it.

FLOODS DO GREAT DAMAGE.

(Continued from page 1.)

Two weeks will, in many places, equal or exceed in destructiveness any previous years' floods, and warning is given to the residents of the threatened districts in Arkansas, Louisiana and western Mississippi to remove from the region of danger.

River Stationary at Helena, Ark.

Helena, Ark., March 20.—There has been no rise since about 10 o'clock Friday morning, and the river is on a stand at this time. At 3 o'clock last night a black cloud passed over the lower part of the city, attended by some wind, but doing no damage. The rainfall was like a cloudburst. In a few minutes the lower portion of the city was under water.

Suffering About Memphis.

Memphis, Tenn., March 20.—Memphis is high and dry, yet she is surrounded by water, and refugees are being brought in from every direction. From early morning till after night-fall the demand is for rescue and relief of the water-bound and starving.

Situation at Charleston, Mo.

Charleston, Mo., March 20.—The river situation in this locality continues critical. A stretch of the Belmont branch at a point seven miles south of town gave way, and the bridge at Crossno is three feet out of line and threatens to go at any moment.

CHICAGO MARKETS BY WIRE.

Chicago, March 20.—[Special]—The wheat market has advanced about two cents during the week while new crop contracts are a shade lower. There is very little connection between the two. One represents the wants of legitimate trade, the other the sentiment of speculators based on crop prospects. The bulls for six months flooded commercial literature with statistics about impending starvation, but we did not at the time consider them of much importance. They were exaggerated and premature but there was some foundation for it all, and it has been endorsed by the extraordinary premiums paid for winter wheat in every market. This leads us to believe that a good demand must spring up from our May wheat which should keep it steady or advance it regardless of the July and September wheat which reflects crop prospects and which are good so far as can be ascertained. We would rather sell than buy new crop contracts. Cash wheat in Chicago is practically at a premium over May already and it will continue to grow larger as we approach the shipping season. The commission is irrefragable that our small stock of spring wheat will be wanted, and that is all we contend for. Crop prospects have improved during the week, barring local damage from floods. On the whole, there is less complaint, however, and the weather in the northwest is moderating. The delay in seeding will come from too much water, if anything, but if the seeding is begun in the next thirty days, it will be early enough. Serious damage has been done by floods in the south, and it ought to have an influence on cotton and corn prospects. Corn has advanced a cent during the week due to wet weather mainly and demand from May shorts. General confidence is gaining ground and any backward planting would advance prices readily. Pork has advanced half dollar per barrel during the week. We have nothing new to add to our previous remarks. Outsiders have commenced to buy provisions and they have profits in their trades and hence it is an element of strength to the market. At present a slight improvement in general business is noticeable.

Pyramid Pile Cure Cures Piles Quickly.

People go along for years suffering with piles. They try this and that and the other thing, from carrying a buckeye to getting treatment from a physican. They obtain temporary relief, maybe, but they are never quite cured. A little strain in lifting, excessive fatigue, a little constipation or a little diarrhoea and the piles come back.

They don't seem to amount to much, but they hamper sleep and appetite. No position is comfortable. There is intense local pain and that dreadful feeling of weight in the perineum. Maybe in the early stages some of the many salves on sale will afford temporary relief. If the case is of long standing there is only one speedy and sure remedy. It is Pyramid Pile Cure. Even in light cases it is the safest thing to use. Other applications may cure and may not. Pyramid Cure is always certain, always reliable, always brings comfort at once. Its prompt use saves months of severe suffering. In extreme cases it will save a surgical operation and its attendant dangers and discomforts. It is better than a knife. Will cure easier, quicker and safer. Thousands have used it. Thousands have been cured by it. The cost is trifling compared with what it does. The price is 50 cents. Most anybody would gladly pay ten dollars to be rid of piles. Druggists sell Pyramid Pile Cure. If yours hasn't it he will get it for you from the Pyramid Drug Co., of Albion, Mich. (sole manufacturers.)

ARCHIE REID & CO.

WILL RUN FOR MAYOR WHATEVER HAPPENS

MR. THOROUGHGOOD STATES
HIS PLAN.

He Would Be Glad To Receive Re-
ceive Republican Endorsement, But
Insists That He Cannot Step
Out, No Matter What the Conven-
tion May Do.

Ex-Mayor Thoroughgood was asked
by a Gazette representative today to
define his position more clearly as re-
gards the mayoralty canvass.

"I am just as good a republican as
ever," said Mr. Thoroughgood, "and I
know of no reason why the republican
convention should not nominate me."

"Supposing that it should not nomi-
nate you?"

"That would not be my fault, would
it?"

"Even if you failed to secure the
regular republican nomination, then,
you would still make the fight."

"I should not want to make any
fight," said Mr. Thoroughgood, "but I
intend to be mayor."

"Then you will stay in the field
whatever the republican convention
may do?"

"Certainly! I cannot stop the move-
ment that is now on foot; and, as I
said, I mean to be mayor."

Mr. Thoroughgood's attention was
called to the fact that democratic
bosses had planned for a month to get
him called out as an independent candi-
date in the hopes of embarrassing the
city convention.

"I don't know anything about that,
and cannot be expected to retire mere-
ly because I am likely to draw demo-
cratic strength," he responded.

Big Causes and the Remedy.

In view of all this and of the lively
interest that democrats are taking in
campaign developments, it is well to
suggest that republicans must do no
squabbling after the convention. Whatever
is done for or against any
candidate must be done at the cau-
cuses.

Whoever the republican nominee
may be he must receive the backing
of every republican in the city. The
nominations must voice the wishes of
the entire republican party. All
republicans, therefore, should turn
out and attend the caucuses. They
should work to nominate a man
who will command the respect of all
the people.

If the caucuses are neglected, and
the nomination made by the republi-
cans is not the best that could have
been made, let no man who failed to
attend caucus, how or where the result
and bolt the ticket.

No Excuse For Bolting.

There is no reason why there should
be a bolt of any nature from the choice
of the republican convention.

Republicans owe as much to their
party in selecting the candidate as in
electing him afterwards, and those
who are not satisfied with the men
who are now mentioned in connection
with the republican nomination, but
do not show their preferences in the
caucuses, will have no cause to bolt.
They, as a rule, however are the ones
that throw elections into the hands of
the enemy.

Should Be No Treachery.

Republicans have been practically
under democratic rule for two years
past simply because of entanglements
that can be avoided this year if republi-
cans will make their fight, before
and not after, the convention.

The Gazette thinks any of the re-
publicans mentioned would make a
strong nomination. People do not
share that belief, should do their com-
plaining—or knitting—now and not
after the choice is made.

Mr. Thoroughgood's Position.

Mr. Thoroughgood defined his posi-
tion today, in this letter:

EDITOR GAZETTE:—The Gazette of
the 19th asks me to declare myself. I
do not know how to do so further
than I have. My platform has been
published in all four of the city pa-
pers. I have not waited until after
nominations are made before taking
the steps I have. I expect the republi-
cans as well as the democrats will
make nominations of such men as they
want. I have personally made a can-
vass with my nomination paper, only
three declining, and had no trouble
in getting twice as many as
needed, of the best men in the
city nearly all of whom are republi-
cans. I have started out on this
line and it should not be expected
when the republicans nominate their
candidate for the office of mayor, I
would stay by the nominee and drop
what I have started out to do. I am
a candidate asking the votes of the
whole city. There is no feeling in
this matter. I am as cool as a cucum-
ber and shall patiently await results,
and hope now my position will be un-
derstood. JOHN THOROUGHGOOD.

TALKED OVER MILES OF WIRE.

Man in Janesville Rung Up Pittsburg,
Pa., Last Night.

James Hinkley, of Pittsburg, Penn.,
talked with a man in this city over

ROCK RIVER IS NOW UP TO HIGH MARK

RECORD OF THREE YEARS AGO
IS EQUALED.

John Edwards Says It Is Fifty-Six
Inches Above the Crest of the Dam
—Small Break in the Raceway—
Rains Are Responsible—Telephone
Lines Damaged.

The water in Rock river is higher
than it has been in three years, the
top notch being reached at 10 o'clock
last evening.

At that hour Superintendent of
Water Power John Edwards reported
it fifty-six inches above the crest of
the dam. Since dawn the water has
been steadily falling. As early as 7
o'clock this morning the register indi-
cated a drop of six inches. All sur-
rounding streams have been greatly
swollen.

On both the Northwestern and the
St. Paul roads, trains into the city
during the past twenty-four hours have
been late. Engineers have had orders
to run slow and take extra precautions.

The Milwaukee passenger train on
the St. Paul road arrived this morning
an hour and fifteen minutes late due
to washouts on different portions of
the division, while passenger trains
on the Mineral Point division were
delayed several hours last evening.

Wrecking Crew Called.

The local wrecking crew at the
Northwestern yards were called last
evening to Port Washington to care
for a freight wreck that had crashed
through a damaged bridge two miles
from that city.

Capt. Pliny Norcross was worried
this morning over his property at Ful-
ton, and notified his men by telephone
to spare no expense or pains in seeing
that all was well.

The Wisconsin Telephone company's
lines were effected, and linemen were
sent out in all directions this morning
to repair the damage.

Superintendent of Water Power Ed-
wards has looked after the local water
power for the past forty-eight years
and according to his figures the water
at its highest point last evening was
two feet lower than the high water
mark of 1891.

Rains Are Responsible.

"This volume of water is the result
of the recent rains," remarked Mr.
Edwards "and not from the amount of
snow in the northern part of the
state as many suppose. In June 1891,
the water in Rock river came up even
with the road bed of the Milwaukee
street bridge and that both Main and
River streets were flooded. The one
question that perplexes me now is to
know where those stores in the bridge
would land if the flood scenes of '91
were repeated."

A small break in the race bank near
the upper cotton mill was discovered
last night, but steps taken in time pre-
vented serious trouble.

At one time yesterday afternoon the
river rose at the rate of six inches an
hour.

The dam at Smith's mill, Afton, was
carried out.

Napoleon 2 Swan.

Napoleon A. Swan, an old resident
of the city of Janesville, died at his
home on Mineral Point avenue last
night at 9:30 o'clock after a long and
painful illness aged about seventy
years.

Mr. Swan was well known in this
city and had worked at his trade, that
of a wagon maker, for many years.
He was a member of the Baptist
church and leaves, beside a wife, two
children to mourn, they being Lot
Swan, of the town of Rock and Mrs.
E. L. Chase, of Humbolt, Iowa.

Mr. Swan came to Janesville in 1847
from Fabius, Onondago county, New York,
the place of his nativity. He was
married in 1849 to Miss Charlotte
Lamson, of Janesville.

Indiana Boodle Scandal.

Indianapolis, Ind., March 20.—The
commission appointed by the governor
to investigate the charges of misap-
propriation of public funds against
State Statistician Thompson, preferred
by his late chief deputy, Captain Wor-
rell, held its first session to-day. A
fact already developed, which it is
claimed the new law will correct, is
that loose methods have prevailed in
running the business of the state, offi-
cials being in the habit of drawing
large sums for the expense account
and filing no memoranda with the
auditor showing how the money was
spent.

Small Boy Kills His Mother.

Monmouth, Ill., March 20.—Bennie
West, aged 8 years, of Smithshire, this
county, had been pointing a 22-caliber
rifle at different members of the fam-
ily. Finally, cocking it, he pointed to-
ward his mother. She admonished him
to be careful, as it might be loaded.
The son pulled the trigger, the ball
striking his mother above the right
eye, causing almost instant death.

BAUER WAS INJURED AT THE COTTON MILL

VETERAN WORKMAN CAUGHT
BY CARDS.

Seven Gashes Cut in His Head, and Dr.
W. H. Palmer Took Eighty-Five
Stitches in Closing the Wounds—
Injuries Painful But Not Necessarily
Dangerous.

After working about the machinery
of the Janesville Cotton Mills for twenty
years without receiving a scratch,
Joseph Bauer was caught in the card-
ing room at the upper mill this morn-
ing and the fact that he escaped death
was a great surprise to those who wit-
nessed the accident. He is now at his
home, 56 Highland avenue, suffering
with a badly bruised right shoulder
and arm. Seven painful gashes were
cut in his head and face, eighty-five
stitches being necessary to close the
wounds.

Bauer is a man with a family and
is nearly fifty years old. For the
past twenty years he has been em-
ployed at the upper mill. This morn-
ing at 6:45 o'clock he attempted to ad-
just the leather belt on one of the
carding machines. The belt had to
be shifted from the loose to the tight
pulley. His arm was caught by the
revolving belt and he was pulled head
foremost into the machine.

Promptness on the part of Foreman
James Sheldon saved Bauer's life. Shel-
don hastened to assist him; the ma-
chinery was stopped; and the unfor-
tunate man with blood flowing from
the gashes in his head and face was
removed from the machine. The pa-
trol was called and he was taken to
his home. Dr. W. H. Palmer assisted
by W. E. Evenson worked over the un-
fortunate man from 7 o'clock till 9:30,
dressing his injuries. His condition
late this afternoon was not considered
dangerous.

THE COIFFURE.

How to Make the Most of Scanty Locks, Present Styles.

Fluffiness is still desirable in the coiffure despite the efforts to introduce flatness and extreme simplicity. Few faces can bear this severity, and those women who are not fortunate enough to have naturally curly hair are at a disadvantage. The first step toward the desired bouffancy and lightness of tresses is frequent washing with some sort of fine soap that has a soothing effect upon the scalp instead of roughening and irritating it. A small amount of hair, and that not very long, is far more favorable to a fashionable arrangement than abundant and heavy

NEW JACKET.

locks, for the latter are a long time drying after washing and are too weighty for the elaborate schemes of the hairdresser.

The coil at the back of the head is placed rather high, and the hair is waved all over. However, the sensible woman is less guided by fashion in the matter of coiffure than in anything else, for there is usually one particular style which best becomes the features and the shape of the face, and having once ascertained what that is she adopts it and maintains it, however mere fashion may change. After all, the chief question is what is becoming to the individual, not what happens to be the style of the moment. The aim is to appear at an advantage without seeming especially odd. The natural hair is, of course, the best adornment, and to keep it as long a time as possible is the desideratum. To encourage growth and preserve its color it is well to let it hang loose as often as possible and to expose it to the sunlight and open air. Blond hair is especially benefited by this treatment, which accentuates the gold.

A picture is given of a new jacket. It is of red cloth and is close fitting, the front being ornamented by a wide, flat plait decorated by black cords and soutache and held in place by cloth straps buttoned with olives. The high collar has a flaring, slashed top faced with caracul. The sleeves are decorated by black cords and soutache, and the same decoration adorns the darts.

THIN MATERIALS.

Ruffle Upon Ruffle—Cream Lace Over Pure White.

For gowns of thin materials there is an increasing tendency toward shirred, puffed and ruffled effects, and ruffles pure and simple are not enough. The heading must be bordered by a yet narrower ruffle. Flounces of satin and taffeta are thus edged with a frill of tulle, gauze, mousseline de soie or crepon. These diaphanous fabrics are very much employed for decorating evening gowns, being liberally puffed around the decolletage and forming

GAUZE GOWN.

ample but transparent sleeves. Flowers are usually mingled with this thin drapery, the effect being very pleasing.

One of the latest fancies in trimming is the association of pure white gauze, tulle and mousseline de soie with yellow, cream and russet toned guipures and laces. Embroidered tulle are also preferred in russet tints. There are some very pretty ones covered with a small, sprinkled pattern of the same color or in jet, over which is a larger, raised design of flowers or stars in white. Tulle in black, white and colors is also embroidered with metallic and jewel tinted beads mingled with gold threads and is used for trimming in the form of applications on skirts and bodices. It is also employed in the composition of the innumerable blouses, chemisettes and collarettes now worn. The love for scintillating effects has not yet waned, jeweled belts and brilliant buttons being in as high favor as ever.

The illustration given today shows a gown of pale blue silk gauze over silk of the same tint. The accordion plaited gauze skirt is embroidered with pinkish purple flowers in a diagonal design. The bodice, plaited at the back, is covered in front by diagonal ruffles of pale blue gauze edged with pinkish purple satin. The sleeves of gauze over silk have a similar ruffle down the outside at the top, and the collar, shoulder knots and belt are of pinkish purple satin. The hat of spangled neapolitan braid is trimmed with the same shade of satin and with flowers.

MUNYON'S
MARCH
MEDICINES

The Learned Professor Gives a Plain Talk on

SPRING DISEASES

One Remedy Cannot Correct All the Changes in the System

SEPARATE SPECIFICS

Are Needed to Prevent the Development of Diseases at the End of Winter.

SEEDS OF CONSUMPTION

Catarrh, Bronchitis and Throat Disease Are Sown by the Neglect of a March Cold—Munyon's Cold Cure Breaks Up the Worst Form of Cold at Once.

WEAK KIDNEYS

The Result of Extra Work on the Part of These Organs During Cold Weather. Are Promptly Strengthened by Munyon's Kidney Cure.

IMPOVERISHED BLOOD

And Deficient Circulation Call for Munyon's Blood Cure, the Best Blood Tonic on the Market—It Enriches and Purifies the Blood, Promotes Appetite and Gives Renewed Strength and Vitality.

Professor Munyon says:—"The idea that one must take 'Spring Medicines' is a great mistake. It is true that at this season of the year many changes take place in the human body that affect the blood, liver, kidneys and nerves, but in healthy people these changes occur without the help of medicines. In fact, it is a sin against nature to take drugs of any kind into the body unless one is ill. The so-called Spring Medicines for the blood are also bad because they pretend to cure all diseases with one combination of medicines. If your stomach is out of order it is absurd to take rheumatic medicine; if you have a cold, a kidney remedy not only does you no good, but may do harm; if your liver is sluggish a nerve cure is useless. In fact, there is only one way to cure promptly and permanently, that is, by treating each phase of disease with the appropriate remedy. 'A separate cure for each disease' is the grand and true principle on which the Munyon system of treatment has gained its marvelous success.

"If you have a March Cold, the first thing is to cure the cold, as this is the season when Grippe and Colds have a dangerous tendency to develop into lung disease and catarrh. The most obstinate colds yield in a few hours to Munyon's Cold Cure. Pneumonia, catarrhal diseases and throat troubles are always prevented by this remedy. Where Colds are complicated by a Cough, the Cold Cure should be alternated with Munyon's Cough Cure.

"The debilitated condition which affects many people in the Spring season is Nature's warning that some organ is weak and often precedes serious disease. It is a condition which needs careful investigation, and which calls for treatment, not with Spring Medicines, but with the remedy that will remove the cause. If the stomach is disordered, Munyon's Dyspepsia Cure will act as a stomach tonic and bowel regulator, assisting digestion, and curing such symptoms as pain or soreness in the stomach, shortness of breath, poor appetite, coated tongue or sour or bitter raising from the stomach, heartburn, indigestion, constipation, dizziness, faintness, and lost energy.

"If the kidneys are affected, the languid, dragged-out feeling is accompanied by pain in the back, dark circles around the eyes, headaches, and deposits of red sand or mucus in the urine. Munyon's Kidney Cure is guaranteed to cure 95 per cent of all forms of kidney disease."

"When the liver is disordered, the whole system feels the presence in the blood of the poisonous substances left by the defective action of this organ. In fact, the condition is one of general poisoning. There is depression of the spirits, tired, worn-out feeling all the time, bad taste in the mouth, aching and soreness in the right side, backache, and aches and pains all over. Munyon's Liver Cure stimulates the liver to healthy action, and makes a perfect cure by removing the cause.

"Impoverished, thin and impure blood is the foundation from which many diseases arise in the Spring months. The poor quality of the blood results in a general low state of health, loss of energy and vitality. The patient takes cold easily, and the colds are obstinate, leading to catarrh, rheumatism and neuralgia. Munyon's Blood Cure not only purifies the blood, but makes new blood, rich in nourishment that invigorates the whole system. It aids the healthful action of all the organs of the body, revitalizes all the tissues, promotes appetite, drives out the skin diseases, brings healthy color to the cheeks, clears the complexion and tones up the nerves, dispelling completely the dragged-out, tired feeling."

No matter what the disease, there is a Munyon specific with which you can doctor and cure yourself. Munyon's Improved Homoeopathic Remedies are sold by all druggists, mostly at 25 cents a vial. There is no guess work, each remedy is plainly labeled with directions for home treatment, and the cure is absolutely certain. If you are in doubt as to the nature of your disease, a personal letter to Professor Munyon, 1505 Arch Street, Philadelphia, will be answered with free medical advice.

ELY'S CREAM BALM is a positive cure. Apply into the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 56 Warren St., New York City.

A Promise.

"It is customary to remember the waiter, sir," said the waiter, as the guest was about to take his leave without feeling him.

"Oh, rest easy," said the guest. "I shall not forget you. Next time I come I shall have another waiter, or I lunch elsewhere."—Philadelphia Press.

What It Suggests.

"I don't like," remarked Senator Sorghum, "to hear a young man constantly asking to be delivered from his friends."

"It's a common sentiment."
"Yes; but it always sounds to me as if he had been borrowing money from them."—Washington Star.

To the Point.

Mr. Vansleek.—Pooh, you're nobody; no one ever heard of you until I married you. Why, I just married you for charity.

Mrs. Vansleek.—Yes, I am well aware you married me for charity; you have been living on charity ever since.—Up-to-Date.

SHOE Interest
NOT ABATING!

Ladies find that

\$1.47

is easy to get together when such shoes are to be bought for that mount. The sale has certainly been phenomenal. Everybody has been satisfied. We knew that any lady who came to look at the \$1.48 shoes would buy. They couldn't help it. The sizes are good, the stock is good, but when room is needed we don't hang back on making room by the quickest and easiest method---low prices.

Plenty of them left yet; any lady who wishes to secure a \$3.00, \$3.50 or \$4.00 shoe at

\$1.47 a Pair

can do so now. She had better come pretty soon, though. They are going rapidly.

78 pr M. K.	\$3.00 and \$3.50 Pic and Round Toe,	\$1.47
47 pr Welts,	\$3.50 and \$4.00 Tokio and Razor Tod,	1.47
24 pr Welts,	\$4.00 Round Toe,	1.47

46 pr button turns, crimp vamp,	\$4.00 square toe,	1.47
43 pr lace turns, crimp vamp,	\$4.00 square toe,	1.47

This list exactly correct; we have deviated in no way from the truth; not a shoe in it cost less than \$2.25 wholesale to us. Of course we have been selling from it for a few days, but there are shoes left for all feet at

\$1.47.

Our Men's \$7.00 enamel shoe is a bargain at \$4.00

Our Men's \$5.00 patent leather shoes are a bargain at \$3.50

Our store is the cheapest place in the city to buy good shoes. Don't take our word for it, though. Come and see for yourself.

GREAT BRITAIN'S GREATLINESS

Englishmen Themselves Seem to Partially Realize It.

We English go our own way, so far as we can see, with very little regard for anybody's susceptibilities, and we must suffer other powers to go theirs, interfering only when the injury becomes serious enough to require something more dignified than shrill remonstrance, says the Spectator. The other powers suspect us at least as hotly as we suspect them, and with this extra justification that, as they see quite clearly, our power reaches everywhere, our broad road is always open and though we protest that, except as regards ships, we are a feeble folk, yet whenever need arises in Europe, Asia or Africa there are the troops ready to march forward and, as a rule, execute their orders with the kind of precision that generals admire. We are not little. Englanders by any means. On the contrary, we hold that the future of the world depends greatly upon the strength of the British empire and its ability to take a leading part in controlling and guiding Africa and Asia.

Hot Flashes.

General Derangement and Nervousness Precluded by Stomach Trouble.

Blood Disorder and Nervousness of Years Standing.

From the Commercial, Mattoon, Ill.

Mrs. Christiana Foster is a matron of Mattoon, who has recently been restored to the ranks of health after many years of suffering. She gave her statement to a reporter in such concise shape that we print it:

"My name is Christiana Foster, I am fifty years of age and a housekeeper. I have lived in Illinois ever since I was twelve years old. During the latter years of my life I have been much afflicted with stomach trouble, blood disorders and nervousness, and these were greatly aggravated about two years ago, when I became subject to most disagreeable hot flashes, (or perhaps I should say 'flushes')."

"I seemed to be losing ground all the time. I could not sleep but for a short time, not being able to obtain any appropriate rest, and I may say I was truly wretched."

"About one year ago, after reading an advertisement of Dr. Williams' Pink Pills for Pale People, I determined to get some of them, and did so, beginning to take them strictly according to directions. I had not taken half a box before I experienced relief, and before I had taken four boxes, I was, I may say, well. Of course I am growing old,

but that did not account for the bad condition I was in, my blood did not circulate, and if I pricked my finger while sewing, no blood followed the puncture. All this is different now, thanks to Dr. Williams' Pink Pills."

(Signed) "MRS. CHRISTIANA FOSTER."

Witness: MRS. ED. HEARN.

The proprietors of Dr. Williams' Pink Pills state that they are not a patent medicine but a prescription used for many years by an eminent practitioner who produced the most wonderful results with them, curing all forms of weakness arising from a watery condition of the blood or shattered nerves, two fruitful causes of almost every ill to which flesh is heir. The pills are also a specific for the troubles peculiar to females, such as suppression, all forms of weakness, chronic constipation, bearing down pains, etc., and in the case of men will give speedy relief and effect a permanent cure in all cases arising from mental worry, overwork, or excesses of whatever nature. They are entirely harmless and can be given to weak and sickly children with the greatest good and without the slightest danger. Pink Pills are sold by all dealers, or will be sent post paid on receipt of price, (50 cents a box, or six boxes for \$2.50—they are never sold in bulk or by the 100) by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.
